Notice for Environment Day

Dear Students

We hope you all are well after vacation mode we are coming back with lots of energy and freshness to beat our school activities. So, this is our pleasure to inform you that we celebrate World Environment Day on 05th June every year. We are going to celebrate it on 17th June 2023 in our school. Therefore, we are going to conduct an activity to aware our students about the importance of our precious environment.

So, this year we are planning to celebrate this day to do some magic with waste material. So for that we are requesting all students to follow the instructions given below:-

Class, I to VII Students are requested to make some hanging water feeders for birds, small houses to protect themselves and flower pots by using coconut shells or any other waste material like a bottle, or hard bags. But you are allowed to use waste material only for making these objects.

The material you can use plastic bottles, shoe boxes or any other cardboard boxes.

Note:- We are going to do this activity in school only. So bring the waste material with you.

Thank you
